# Chemical Physics

Contents

VOL. 228, NOS. 1–3
1 MARCH 1998

*Abstracted/indexed in: Chemical Abstracts, ERDA Abstracts, ISI Current Contents, Inspec Abstracts, Nuclear Engineering Abstracts, Physics Abstracts, Physikalische Berichte/Physics Briefs*

On the localization of the electronic excitation in supramolecules built up by equivalent units linked by hydrogen bonds
V. Guallar, M. Moreno and J.M. Lluch 1

An ab initio molecular orbital study of the reaction $NH_2 + NO \rightarrow H_2 + N_2O$
L.A. Baker and S. Su 9

Infrared matrix isolation and theoretical studies of $SO_2$–$HNO_3$ and $SO_2$–HONO systems
M. Wierzejewska, Z. Mielke, R. Wieczorek and Z. Latajka 17

Several excited states and thermochemical properties of $PH_n$ ($n = 1$–3) – a high level ab initio study
Z. Gan, K. Su, Y. Wang and Z. Wen 31

The electronic states and molecular properties of 1,2,3-triazine studied by VUV absorption, near-threshold electron energy-loss spectroscopy and ab initio multi-reference configuration interaction studies
M.H. Palmer, H. McNab, I.C. Walker, M.F. Guest, M. MacDonald and M.R.F. Siggel 39

Transformation of the helium atom Schrödinger equation into integral form
H.F. Hameka 61

Infrared matrix isolation and DFT study of $NiN_2$
L. Manceron, M.E. Alikhani and H.A. Joly 73

Application of the correlation-crystal-field delta-function model in analyses of $Pr^{3+}(4f^2)$ energy-level structures in crystalline hosts
G.W. Burdick and F.S. Richardson 81

Molecular motions of nitroxyl radical spin probes in X-zeolites. Dependence on zeolite cation and spin probe chemical functional group
D.C. Doetschman and G.D. Thomas 103

On enantiomeric excesses obtained from racemic mixtures by using circularly polarized pulsed lasers of varying durations
A. Salam and W.J. Meath 115

Determination of concentrations via the diminution of Doppler shifts by radiation trapping
X. Hong and T.A. Miller 131

He metastable concentration measurements in a glow discharge
M.H. Suh, X. Hong and T.A. Miller 145

Structure of molecular association of curdlan at dilute regime in alkaline aqueous systems
T. Tada, T. Matsumoto and T. Masuda 157

*(continued on inside back page)*

CONTENTS DIRECT

**ContentsDirect,** the ***free*** e-mail alerting service, delivers the table of contents for this journal directly to your PC, prior to publication. The quickest way to register for **ContentsDirect** is via the Internet at: **http://www.elsevier.nl/locate/ContentsDirect.** If you don't have access to the Internet you can register for this service by sending an e-mail message to cdsubs@elsevier.co.uk - specifying the title of the publication you wish to register for.

## Contents

*(continued from page 4 of cover)*

Theoretical investigation of collision induced dissociation in He + $Na_2$
K. Sakimoto 167

Theoretical treatment of state-selective one-electron capture by $S^{3+}$ ions in collisions with helium
M.C. Bacchus-Montabonel 181

The role of the initial population of molecular vibrations in surface photochemistry
S. Thiel, T. Klüner, M. Wilde, K. Al-Shamery and H.-J. Freund 185

Temperature dependence of the dissociative sticking probability of $N_2$ on Fe(111): evidence for both a direct and a precursor mechanism
D. Lajer and F.Y. Hansen 205

Rotational spectrum of aminocyclobutane: internal rotation and inversion of the $NH_2$ group in the gauche–equatorial conformer
L.B. Favero, G. Corbelli, B. Velino, W. Caminati and P.G. Favero 219

Franck–Condon factors for multidimensional harmonic oscillators
P.-Å. Malmqvist and N. Forsberg 227

Structural and dynamical properties of HCl dissolved in $CCl_4$. A molecular dynamics study
G. Chatzis, M. Chalaris and J. Samios 241

Monte Carlo, maximum entropy and importance sampling
R.D. Levine 255

A model for electrochemical proton-transfer reactions
O. Pecina and W. Schmickler 265

Spectroscopic study of N-acetylcysteine and N-acetylcystine/hydrogen peroxide complexation
M. Picquart, Z. Abedinzadeh, L. Grajcar and M.H. Baron 279

Electronic spectra of linear carbon anions
M. Tulej, D.A. Kirkwood, G. Maccaferri, O. Dopfer and J.P. Maier 293

Structure of aniline–X (X = Ar, $^{20}Ne$, $^{22}Ne$) from high resolution microwave spectroscopy data
D. Consalvo, V. Storm and H. Dreizler 301

Vibrational relaxation of diphenylacetylene at low temperatures
H. Abramczyk, M. Kołodziejski and G. Waliszewska 313

Time-resolved resonance Raman study of intermediates generated after photodissociation of wild-type and mutant CO-myoglobins
S. Nakashima, T. Kitagawa and J.S. Olson 323
